With over 15 years experience, GS Photography have the expertise to provide your Dance Academy with high quality images to make every parents heart melt.

We come to your studio for free, along with our generous 6mx6m backdrop, enough to accommodate even the largest of groups.

GS photography can photograph all dance styles.

WE ALSO PAY YOU A COMMISSION.
Commission will be paid on all sales processed on the viewing day.

With our viewing day system, parents can browse the images taken and make a purchase on the day. We will have copies of each image on hand so parents can take the prints home on the day. Larger print sizes and extra copies can be ordered on the day for postage straight to the parents house. After the viewing day the images will also be placed online for any late orders. Parents can then browse the images taken in the comfort of their own home at their own leisure, on our password protected website.

All of the transactions are then securely processed and the photos sent out directly to the parents address.
